Request for Proposal (RFP)

IT Help Desk Outsourcing

1. Introduction

VB Spine LLC is a $700M global MedTech company focused on advancing spinal health. Following our recent formation as an independent company, we are seeking a long-term vendor partner to provide ongoing IT Help Desk Support. This vendor will serve as an extension of our IT team, ensuring our Technology Services continue to act as an enabler for our evolving business needs.

2. Company Background

- Company Size: ~1,300 users
- Company Locations: Leesburg, VA – Allendale, NJ – Cestas, France
- Company Industry: MedTech, Spinal Care

3. Scope of Services

The mission for the outsourced IT Help Desk will be to provide level 1 and 2 support for local, remote and hybrid users for issues involving both hardware and software. The goal will be to meet and exceed business expectations by providing consistent communication and support for all Technology Services in a professional, competent and timely manner. VB Spine requires that the chosen vendor partner have an IT Help Desk that is made up of a group of dedicated technicians who will become familiar with their users and environment.

Support will be required to be provided via Phone, Chat, Email and VB Spines ITSM ticketing system. Coverage hours will be 24x7x365 with primary language support being offered both in English and French. Awardee will be required to provide a toll-free phone number in both the US and France for support purposes.

Level 2 deskside support will need to be made up of 2 technicians in Leesburg, VA, 1 technician in Allendale, NJ and 3 technicians in Cestas, France.

The chosen vendor partner will be required to provide assistance for the following, but not limited to:

- Assistance with password resets and multi-factor authentication (MFA).

- General IT support for computers, laptops, and mobile devices with Windows, Mac, iOS and Google operating systems.
- Support for network and wireless network connectivity.
- Email and communication software (Outlook, Teams and Zoom).
- Assistance with issues utilizing core SaaS tools, including Rippling HRIS, SharePoint, Salesforce, SAP Concur, JDE and others.
- The Microsoft 365 suite of applications.
- General conference room technology/equipment support for projectors, cameras, audio and display issues.
- Support for general issues with printing and printers.
- Asset Management.

4. Service Level Requirements

- Calls, emails and chats should be handled by appropriately skilled technicians.
- Average time to answer, for both phone calls and chats, needs to be <60 seconds, including during peak times.
- Email inquiries need to be responded to within 60 minutes.
- First call resolution will be >70% in year 1 with a 10% positive increase by year 2.
- Issues that are unable to be resolved by the Level 1 team will be escalated to the Level 2 team through a documented ticketing process or via phone call, pending urgency of the issue.
- SLA, KPI and performance analysis reports will be provided to VB Spine on a timely and consistent basis. These will include, but not be limited to, statistics surrounding calls handled, abandonment rate, average time to answer, average handle time, average hold time, customer satisfaction, ticket volume, ticket backlog, customer effort score and escalation rate.
- Agent training and coaching will consist of user feedback as well as recorded samples of calls/chats.
- A recurring bi-weekly meeting will be held between the VB Spine IT team and the vendor partner account manager, as well as quarterly business review meetings with VB Spine IT leadership.

5. Volume & Metrics

Historical reports ran on ticketing volume and metrics were found to not be applicable, as we are doing a full roll-out of endpoints with no needed refresh for 3+ years, we will be utilizing MS Autopilot for the build, as well we will have a vast percentage of tools utilizing self-service.

6. Technology & Integration

Current Core IT Environment:

- ServiceNow ITSM
- Exchange-Online email
- M365 toolset
- Outlook, Teams, Zoom
- Windows & Mac OS computers
- iOS & Google mobile devices
- Papercut cloud printing
- Palo Alto Global Protect VPN
- See Appendix A for further listings

SaaS Platforms (core list):

- ServiceNow ITSM
- Rippling HRIS
- Salesforce
- JDE
- SharePoint
- SAP Concur
- Azure
- AWS
- Intune
- See Appendix A for further listings

7. Performance & Reporting

Vendor partner to provide their intended performance metrics, manner and frequency of reporting, desired results and approach to corrective actions.

8. Vendor Requirements

Vendor partner to provide the below information:

- Company Overview – size, location, years in business, relevant expertise, MedTech experience
- Service Approach – methodology for agent training, customer satisfaction, staffing model, agent advancement, dedicated team
- References – supply at least two relevant client references
- Case Studies – provide success stories of work with clients
- Certifications – provide certifications in relevant areas

9. Pricing Structure

Pricing shall be submitted as an annual charge, but vendor partner should also include any additional costs that could possibly arise. A three-year term shall be awarded with a go-live no later than January 19, 2025, and shall conclude January 19, 2028. If VB Spine deems it in its best interest, the contract may be extended for two (2) additional one (1) year periods.

10. Legal & Compliance

This RFP contains material which is highly sensitive and is confidential to VB Spine. The vendor partner will not disclose to third parties any of this RFP or the services, data or project to which it relates without the prior written approval of VB Spine. In addition, no results of the RFP process are to be released by the vendor partner.

11. Proposal Submission Guidelines & Timeline

Guidelines:

- Submission Deadline: December 15, 2025
- Submission Format: PDF, PPT or Word proposals, max 15 pages
- Submission Method: Email proposals/questions to daniel.anderson@vbspineco.com

Timeline:

- RFP Release: December 3, 2025
- Proposals Due: December 15, 2025
- Vendor Presentations: December 17-18, 2025
- Final Selection: December 22, 2025
- Contract Start Date: January 19, 2025

12. Evaluation Criteria

RFP responses will be evaluated and ranked according to the criteria below by an evaluation committee composed of VB Spine team members:

- Experience & Qualifications (30%)
- Ability to Implement (15%)
- Reporting, Transparency & Communication (15%)
- Cost/Pricing Model (15%)
- Quality of Responses & References (15%)
- Regulatory & Compliance Familiarity (10%)
